

Gingerbread Spacecraft Psyche Tutorial

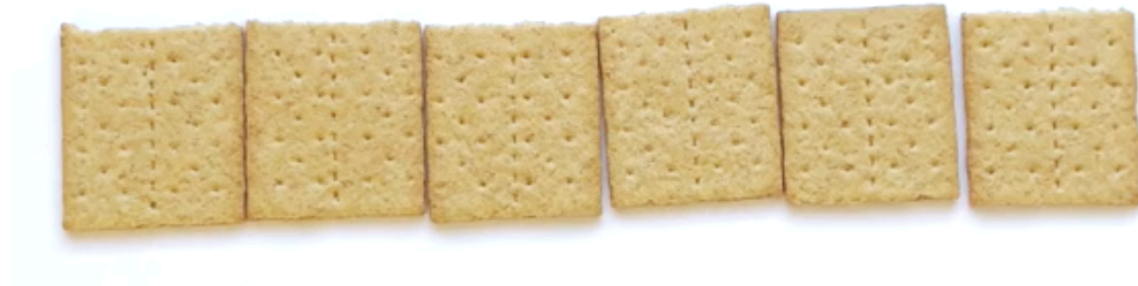

Materials

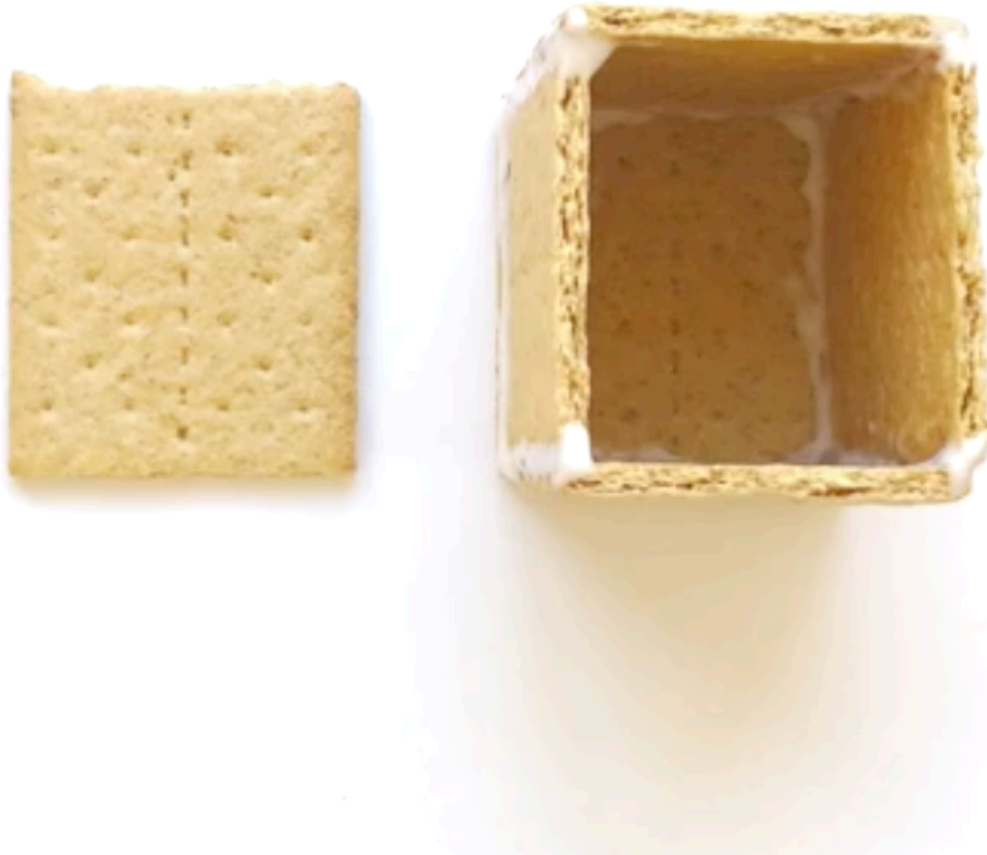

- Graham crackers
- 1 wafer cookie
- Royal Icing
- Plate
- Fork
- knife

Step One

- Break three graham crackers in half to create 6 square graham crackers.

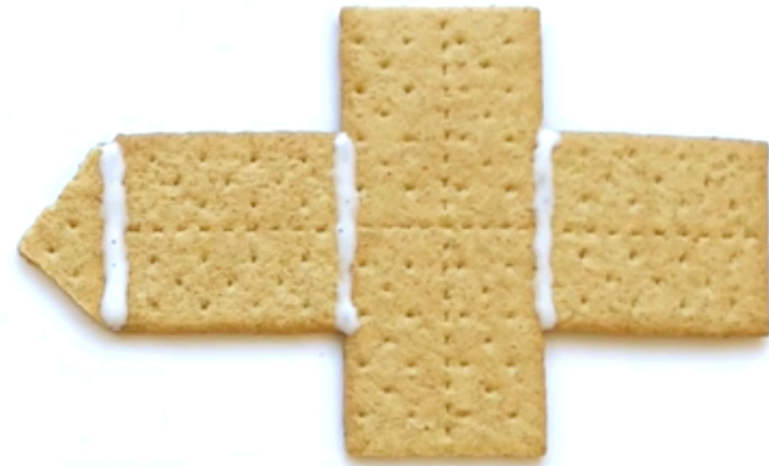

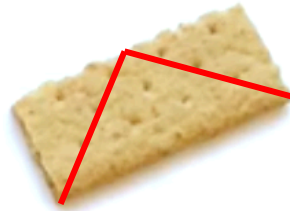

Step Two

- Spread royal icing on all the edges of each graham cracker.
- Then stick the edges of the graham crackers together to form a cube. (This is the bus of the spacecraft)

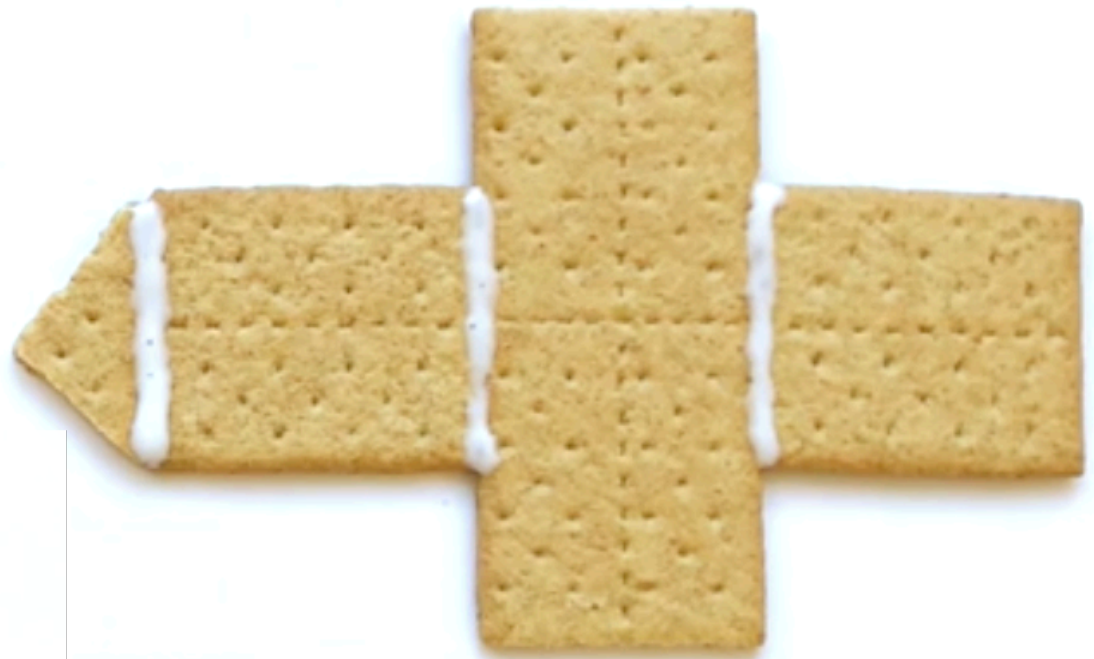

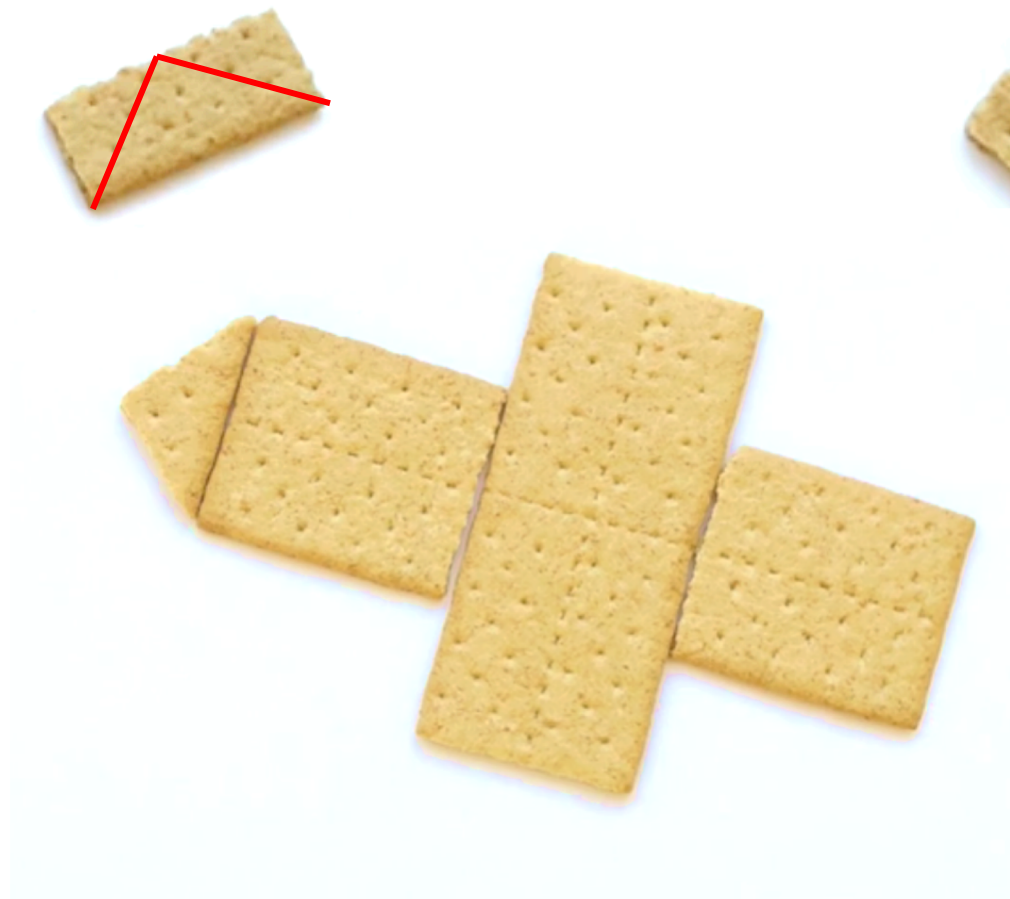

Step Three

- Grab 1 whole graham cracker and break another graham cracker in half.
- Then make a fourth of the graham cracker into a triangle
- Spread royal icing on all the edges of each graham crackers.
- Then stick the edges of the graham crackers together to form a panel

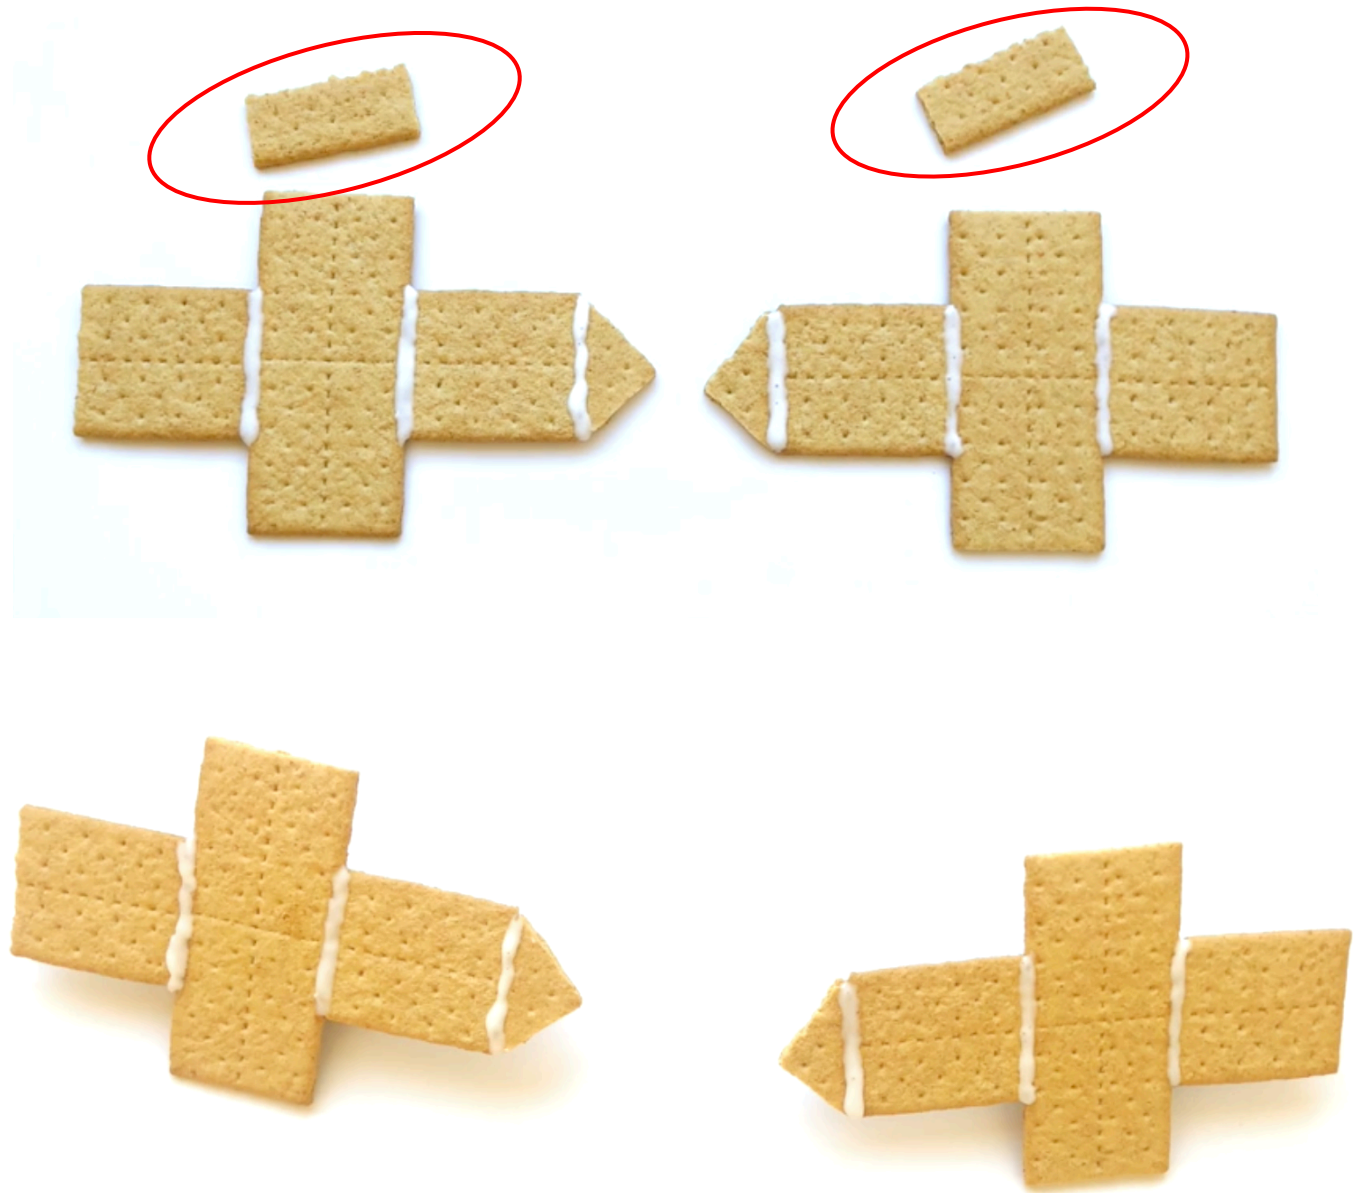

Step Four

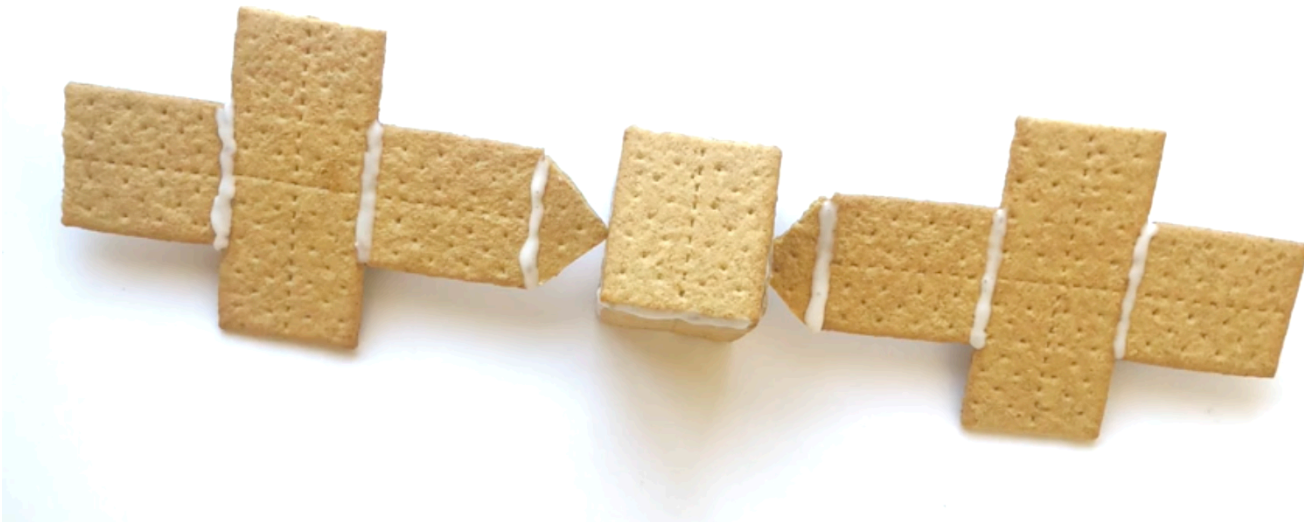

- Repeat step three

Step Five

- Grab 1 half of a graham cracker and slip it in half to make two mini rectangles show to the right.
- Then add royal icing to one long edge of the new graham cracker.
- Next stick that edge to the back of the panel.
- Repeat steps for the second panel

Step Six

- Add royal icing on the tips of the panels and connect the panels to the cube graham cracker we made in step 1.

Step Seven

- Add royal icing to the rounded side of the wafer cookie and stick the cookie at the of the spacecraft. This is your satellite! Now enjoy your gingerbread Psyche spacecraft.
